

OVERVIEW

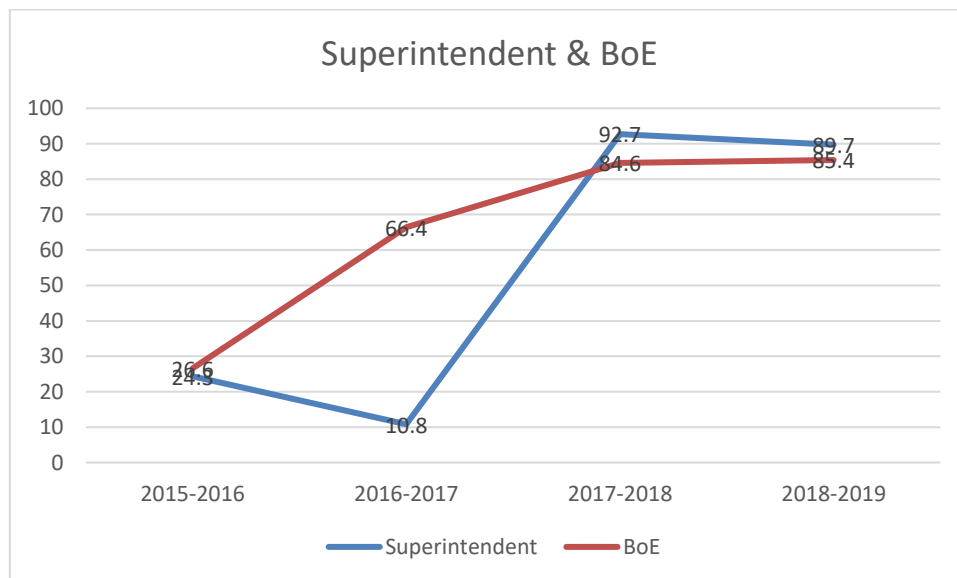

The HCEA Job Satisfaction Survey is a long-standing service provided to the Association's members and the Howard County community annually since the early 1990's. Over 3100 HCPSS employees participated in 2018-19, this represents 42% of the 7400 eligible employees. The survey is conducted by an independent firm and runs from mid-January to late February. For employees to have detailed information in the voluntary transfer process, results are released prior to April 1st. In the interest of openness and transparency, raw numerical survey data is available as downloadable Excel files at www.hceanea.org.

AT A GLANCE

Statement	% Agree
I have confidence in the leadership exhibited by the HCPSS Superintendent.	89.7%
I have confidence in the leadership exhibited by the Howard County Board of Education.	85.4%
I have confidence in the leadership exhibited by HCEA.	93.7%
Overall, morale at my school/worksite is good.	66.9%
I am provided adequate time during the workday to plan, prepare for and do my job.	53.6%

SUPERINTENDENT/BOARD LEADERSHIP

Educators continue to have high confidence in both the HCPSS Superintendent and Board of Education. Over the past eight years, confidence in previous Board's stayed within the 40-60% range. Over the past two years, it has remained in the mid 80% range. Likewise, over the same period, the highest level of confidence exhibited in the previous two Superintendents was 67% (2011) and 74% (2012). Over the past two years, almost 90% of educators agree they have confidence in the current Superintendent.

2018-2019 HCEA Job Satisfaction Survey

CONFIDENCE IN HCEA

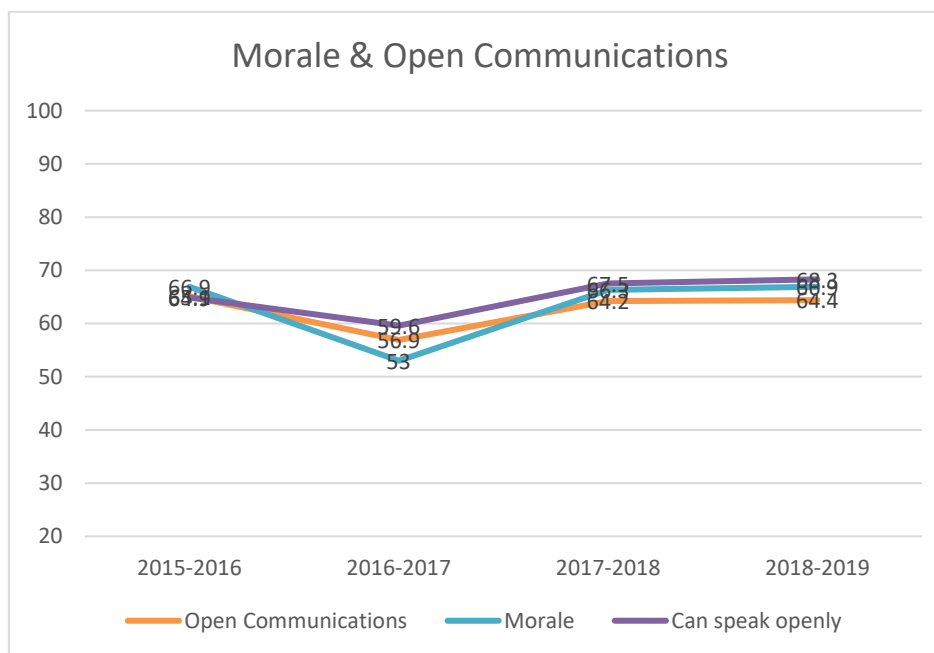

A clear majority of educators, 93.7% are confident in the leadership exhibited by the Howard County Education Association. Notably, non-union members have high levels of confidence, 82.4%, in the Associations as well.

MORALE

Agreement with the statement “Overall, morale in my school/work site is good” remained relatively static this year at 66.9% of educators agreeing. High schools are trending above this agreement level at 73.2% while middle schools are trending below at 59.6%.

In addition, educator’s feelings of an atmosphere of open communication and trust at their school has also remained consistent at 64.4% educators agreeing. This correlates with the slight increase in agreement that educators can speak openly without the fear of repercussions, from 67.5% last year to 68.3% this year.

Although agreement in these areas is up from several years ago, we have room for growth.

PROFESSION

Of the respondents, 85.2% feel successful in their work. Although this number is high, it is down slightly from 86.7% last year. It is also dramatically different than the 53.6% of educators that believe they have adequate time during the workday to plan, prepare for and do their job. Just as dramatically, only 45.9% of educators believe they are paid fairly, a drop of 6% from last year. Hopefully, the tentative agreements for the next two years will help increase agreement in this area.

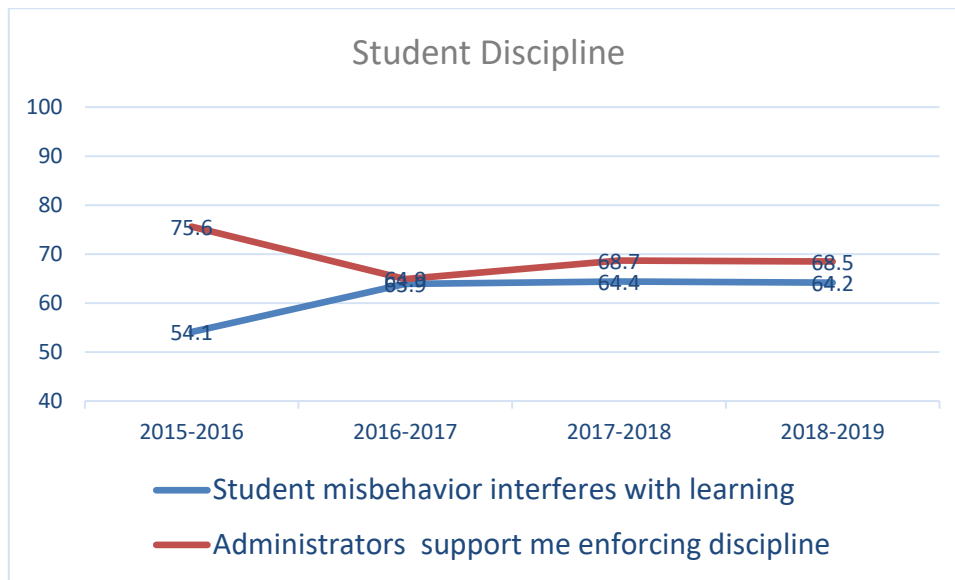

Like last year, most of our educators, 83.9%, feel they are treated as professionals at their school/work site. In addition, 80.1% report good teamwork among staff at their work site. Additionally, a high percentage of respondents, 91.9%, agree that administrators respect their negotiated contracts and 82.2% agree that their planning time is respected by administrators/supervisors.

2018-2019 HCEA Job Satisfaction Survey

In addition to planning time, this year's Job Satisfaction Survey inquired about PIP time. Only 34.4% of educators agreed that they spend their PIP time on non-instructional activities. While 72.8% of educators agree that their administrators include time for teacher-initiated collaboration.

Educator's responses that their environment is conducive to success (safety and cleanliness) dropped slightly from 76.7% to 74.5% this year but it was at 81% in 2014-2015. This data coincides with the increase of square footage employees are tasked to take care of within the same number of hours and the continued deferred maintenance costs.

Like many of the slight changes we have seen this year, there has been little change in the number of educators that agree, 68.5%, that administrators/supervisors support them in enforcing discipline, 68.7%, last year. At the same time, 64.2% of educators report that student misbehavior interferes with learning.
